

The Washtenaw County Area Green Team

MISSION STATEMENT

The Washtenaw County-Area "Green Team" is a group of individuals who have come together to work on issues related to:

- energy conservation
- environmental & ecosystem preservation
- alternative/renewable energy development,
- development of "green collar" business infrastructure, jobs and opportunities in our area

Our work will range from individual action to national initiatives with an emphasis on connecting people into relevant activities. We will work with other organizations in our communities to identify ways in which we can assist them and compliment their efforts as well as establish our own projects & programs when that is appropriate. Our members will help educate area residents with regards to opportunities to participate in events and activities related to our focus. This includes political initiatives, business activities, and community service events.
